

I benefit from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.

I drive 30 miles to work and back everyday...XM radio provides clear, continuous reception that I don't get with local radio stations. I still listen to my local news and weather updates, but for pleasure and entertainment, I prefer my XM radio. I pay for the service and should not be prevented from accessing the variety and quality I prefer.
